

## About the Company

Workonomix is an innovative digital recruiting platform that helps enterprises to build verified talent pools at speed and scale. Our platform USP is worker owned identity and verification using Blockchain, to deliver efficiency to the business and convenience for the worker. The business model is worker lifetime value based, driven by a network effect. We are a Swiss company, our key clients include large Food Delivery platform and a national public service player. Our market focus is On-demand economy and highly regulated enterprises.

Being at the intersection of HR tech, delivery and logistics and identity positions us uniquely to be relevant for the Post Covid world.

We are a multi-cultural team based in Switzerland and India.

## Internship Opportunity

**We are looking for an all-rounder intern to help accelerate our growth, implement operational processes as well as gather further insights for our product from the enterprises and users.**

Business Areas: Business Development, Product Management, Service Operations

The concrete project definition will be done keeping the skills and interest of the intern in mind to generate optimal outcome for all in a short but intense engagement.

Duration and Start: 2-3 months (extendible), starting mid-July

Location: Zurich and Remote
